Ve druhém pololetí jsme se ve výtvarné výchově zabývali tématem SOV. Nejdříve jsme si prohlédli stavbu těla, popsali si názvy, a pak jsme se pustili do práce. První úkol byl tisk z koláže. Podle fotografií sov si studenti připravili matrici z papíru, kterou následně otiskli. Čím byla matrice propracovanější, tím pak i výtisk byl zajímavější. Nakonec děti použité matrice nalepili na velký papír, kde namalovali jako podklad větve. A teď si je můžete prohlédnout v jejich třídách.

Další technika, kterou jsme si vyzkoušeli, byl suchý pastel. Někteří stihli i malbu temperou, kde malovali zvětšené detaily sov.

Všechny práce se studentům velmi podařily, sami se můžete přesvědčit ve fotogalerii.
